

# **ADDRESS LABEL Printing Instructions – Balíkovna**

The following simple instructions will inform you about the **correct method of printing and implementation of the new address label** for certain Balíkovna.

A file with graphic objects necessary to create an address label makes an integral part hereof.

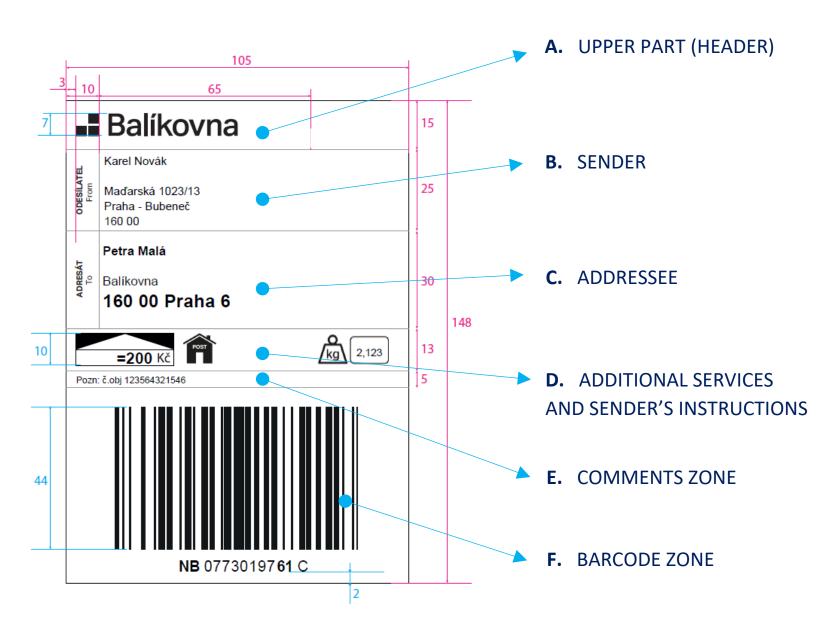

#### **PARAMETERS**

Orientation: Vertical

Size: A6 Colour: BW Font: Ariel

### **FOR PRODUCTS**

Balíkovna

# A. UPPER PART (HEADER)

Logo Balíkovna **Balíkovna** 

Size of Balíkovna logo: 50x7 mm

# **B. SENDER**

Field identified as: "ODESÍLATEL From"

#### Number of characters – data from the fields:

- "Name" a "Surname/Business name" up to 34 characters
- "Additional details" up to **34 char.**
- "Street", "House number" up to 40 characters
- "Municipality/Municipal district" up to 34 characters
- "Postcode" 6 characters (including space)

N.B.: A correspondingly smaller font size should be used for the entire row with a growing number of characters (minimum font size: 2 mm).

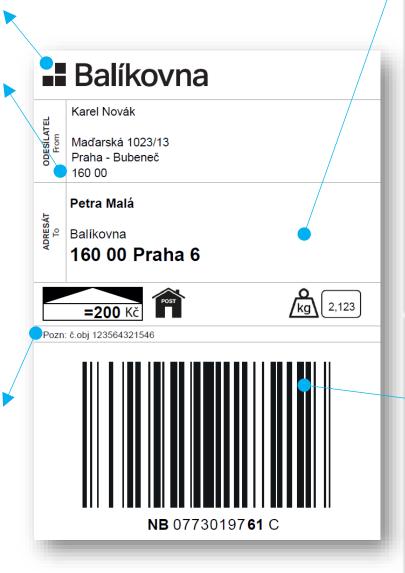

## **E. COMMENTS ZONE**

Zone for the sender's comments, such as order number.

To be printed: "Pozn:"

### **Parameters:**

Font size: 2 mm Number of characters: up to 50 char.

### C. ADDRESSEE

Field identified as: "ADRESÁT To"

#### Number of characters – data from the fields:

- "Name" a "Surname/Business name" up to 34 characters, in bold letters
- "Balíkovna" up to 34 characters –
   Balíkovna should always be printed!
- "Postcode" and "Name of Balíkovna" –
  up to 34 characters, the complete
  "Postcode" data should be specified as first
  on the AL, in bold letters

#### **Parameters:**

Font size (heading): 2 mm
Font size (capital letters): 3 mm
Font size (postcode and municipality): 4 mm

# F. BARCODE ZONE

#### **Parameters:**

Alphanumeric barcode type C 128 with a fixed length of 13 coded char.

Font size: 3 mm

Font size - product prefix and the last 2

digits before the suffix: 4 mm, bold

Use a space to separate the last 2 digits on each side; barcode transcription and barcode quiet zone are required.

# D. ADDITIONAL SERVICES AND SENDER'S INSTRUCTIONS

Only the services required by the client should be printed. If the number of additional services or sender's instructions is too large to print all the matching pictograms on the AL, the sender should enter as many services on the AL as possible and specify all services required for the consignment in the posting data and on the posting certificate.

SERVICE	DESCRIPTION	DETAILED SPECIFICATION	ALIGNMENT	PICTOGRAM (ICON)	PICTOGRAM SIZE	PRINT ORDER
CASH ON DELIVERY	for consignments with additional service 41 or DU	Use <b>bold digits sized 3,5 mm</b> to enter the COD amount and the <b>currency (CZK)</b> , preceded by the <b>equality sign</b> (=), in the field CZK.	Left	Kč	30x10 mm	1
DEPOSITED CONSIGNMENT	х	The icon is used only in the case of Balíkovna consignments, which are addressed to Balíkovna.	Left	POST	10x10 mm	2
вох	х	The icon is used only in the case of Balíkovna consignments, which are addressed to the self-service box.	Left		10x10 mm	3
WEIGHT	Weight with the acronym "kg" and the field for numerical identification -	Weight should be printed if it has been entered in the posting data. If the posting data does not include weight, leave the icon empty so that weight can be written by hand.	Right	kg	20x10 mm	<b>4</b> will always be printed
